-THE WINDSOR WAGON. A. Our new Wagon finds great favor with gentlemen driving the lastest road horses, who prenounce it the BEST WAGON FOR SPEEDING yet produced. The side-bars resting directly on the axles, vastly increased STIFFNESS is obtained, and the body resting on springs attached to the side-bars, the disagreeable jar of the so-called HARD WAGON is obviated. By this method, combined with the VERTICAL STEEL FILATE IN AXLE, we are enabled to construct a Top Wagon of 150 LBS. WEIGHT, equal in STIFFNESS to the ordinary 250 LBS. WEIGHT, equal in STIFFNESS to the ordinary rooms, Fifth avenue, corner Twenty-first street, or at the factory.

REPAIRING DEPARTMENT.

BREWSTER & CO., OF BROOME STRUET.

Owners of carriages are respectfully informed that we have a thoroughly organized department for the repair of Carriages, under the personal control of a member of our firm, assisted by a competent foreman, trained in our old Broome street establishment.

The quality of the labor and material is precisely the same as that employed in the production of new carriages.

The extent of our premises and our large working force give us marked advantages in the PROMPT and THOR-UUGH excution of the work intrusted to us.

Lagral estimates will be made of the cost, and no carriage, to or iff, will be charged.

Orders may be left at the factory or warerooms.
